#### Distortion 4 - by Clay Gold 2013 - 2

I am sitting at a computer using Google Translate.  
I am re-writing the work of Alvin Lucier which I will enter in English and translate into each successive language in alphabetical order and back again until the algorithm of the translator reinforces itself so that any meaning in the words is destroyed. What you will read, then, are distortions. I regard this activity not so much as a demonstration of a digital fact, but more as a realisation of the phrase 'lost in translation'.

I sat on a PC using Google Translate.  
I re-write the work of Alvin Lucier I go in English and translated into each successive language in alphabetical order and returned to the algorithm of the translator strengthen a meaning in the words destroyed. What you will read, then distortion. I regard this activity not so much as a demonstration of a digital fact, but more as a realization of the phrase "lost in translation".
