Passages IX - notes for performers

All notes, including natural and artificial harmonics, are written an octave above their actual sound

strike the body, in the manner indicated (soft part of fingertip(s) unless instructed otherwise). Lower sounds towards centre of soundboard, higher sounds towards edge (or on ribs if so indicated), gliss: move from a lower/ higher sound to a higher/lower one.

strike with knuckle of r.h. (until end of line)

natural harmonics

artificial harmonics

play behind the nut

on the saddle

□ use the flat of the r.h. fingernail(s)

✎ strike with flat, open, right hand

↗ rapid glissando (to as high a note as possible)

↘ rapid glissando (to as low a note as possible)

⊕ dampen sound

all marked dynamics are relative, e.g. it may be necessary to play a harmonic marked **pp** louder than a normal note marked **pp** in order to match the sounds
