

I love this song! (text score 21.11.21)

- ① all coming in together, hum any pitch
- ② listening across the ensemble, move towards a major chord
- ③ once a major chord had been settled on, listen and sit in it for a bit
- ④ think about a song/piece you love that has this chord in it (doesn't matter if it is exact or not, it's just about what association the sound of the chord brings up)
- ⑤ perform/imitate that song/piece (quite quietly, to yourself) for a bit
- ⑥ when you finish your performance, go back to step ① (start back straight away even if others are still performing)
